DRILL HOLES

PROJECT DESCRIPTION

I. GENERAL

This project involves the modification of the traffic control signal at the intersection of MD 27 (Ridge Road) and Skylark Road in Clarksburg, Montgomery County. The modification includes installing an Exclusive/Permissive phase for northbound MD 27. Video detection is provided for the northbound MD 27 left turn approach. MD 27 (Ridge Road) is assumed to run in a north-south direction.

II. INTERSECTION OPERATION

1. The intersection operates in a NEMA three-phase, semi-actuated mode, with the MD 27 (Ridge Road) approaches running concurrently. The Skylark Road approach runs in its own phase.

2. A full traffic-actuated, eight-phase controller with video interface and all necessary equipment housed in a NEMA size "6" base-mounted cabinet are installed at this intersection.

III. SPECIAL NOTES

- The Contractor shall be responsible for terminating all signal cables, to the appropriate terminals and shall properly label each cable.
- All modifications to the controller cabinet wiring will be performed by Montgomery County Signal Forces. Contact Mr. Kamal Hamud at (240) 777-8761 seventy-two hours in advance of intended work.
- All underground and overhead utilities shown on these plans are schematic only and may not be complete. The Contractor shall be responsible for notifying Miss Utility prior to construction so that all utilities may be located in the field. If the Contractor perceives that a conflict between the utilities and the traffic signal will occur, the Contractor shall notify the Project Engineer immediately so that the conflict may be resolved.
